Dan Himbrechts
P H O T O G R A P H Y

Dan has been shooting photos for over 10 years. While growing up in Sydney's western suburbs, he developed an interest in photography and found the perfect subject matter right in his own backyard - skateboarding.

After completing a BA Visual Arts, Dan launched head on into action sports photography and has experienced a great deal of exposure. Dan is known for bringing a skateboardesque style of photography into Australian snowboarding.

Dan's work has been published in magazines from Australia, New Zealand, Finland, USA, France and Japan. Including: Australian Snowboarder, Snowsurf (Fr) NZ Snowboarder (NZ) Snowextreme (Fin) SG magazine (USA) and Transworld Snowboarding (Japan).

In between documenting the action on the mountains, Dan has spent part of the last two years shooting a series of black and white portraits of Australia's elite snowboarding fraternity - giving a face to a subculture normally hidden behind large goggles.

Dan is currently senior photographer at Australian Snowboarder Magazine, works as a commercial freelance photographer in Sydney and is a regular contributor to various snowboard magazines around the world.
